

SHRI RAMKRISHNA SEVA MANDAL
Devotion towards humanity...

PLANET CLUB

REPORT

ACADEMIC YEAR 2015-16

About SHRI RAMKRISHNA SEVA MANDAL:

Shri Ramkrishna Seva Mandal (SRKSM) is a registered society and a public trust. It was established in the year 1954, as a multidimensional experiment. It was not only an educational trust providing institutes from primary to research level education, but it also had a strong medical and socio-economic implication for surrounding rural area.

About ECO Planet Club:

The foundation upon which our trust Shri Ramkrishna Seva Mandal is built is very empathetic and self-sustaining. It is because of this reason that since our inception, we have been dedicated to the cause of environment conservation and preservation. Environment preservation has been our top priority and by keeping the same motto in our mind, we have created an Eco Planet Club that provides students with a clear perspective on how to preserve and respect our Mother Nature and environment. The Eco Planet Club helps in increasing the consciousness and knowledge of every student regarding the environment and the several major environment related problems facing the country today. This will help our students in becoming the ambassadors of environment preservation, who raise our environmental conditions to such a great heights of preservation so that even other countries shall also take examples from it. Shri Ramkrishna Seva Mandal (SRKSM) has conducted a series of programs for students, parents, faculty and public at large for increasing environment related awareness. With this belief, SRKSM has taken a step forward and formed an Eco Planet Club under the aegis of SRKSM. The activities of the Eco Planet Club is being over seen and monitored on regular basis by the following functionaries of SRKSM.

Green Audit Report (General State of Affairs: 2015-16)

 Waste Management

 Cleanliness of Campus

 Power and Energy Saving

 Spreading Greenery

 Water Conservation

Green Audit aims at securing the environment and making recommendations for environmental sustainability of SRKSM campus, for keeping a healthy and hygienic atmosphere. It is a systematic and methodical assessment of the institutions' activities in relation to environmental green issues. The Eco Planet Club conducted the internal Green Audit in the academic year 2015 - 16 in order to maintain eco-friendly atmosphere in the campus which is in line with the Swachh Bharat Abhiyan. In order to maintain a co-friendly ambience in the campus, efforts have been made in the following areas.

Waste Management

Every college has a dedicated system and mechanism through which the everyday wastage is disposed of with the help of scheduled waste pick up services of the municipal authorities.

Cleanliness of Campus

Each of the constituent colleges has housekeeping staff that ensure that classrooms, corridors, computer labs as well as toilets are clean. This prevents the spread of any disease in the college premises and also protects the infrastructure of the college from dirt and dust. The hygiene and sanitation in the campus has ensured that there are no mosquito breeding in the surrounding and also there has been no cases of dengue, malaria, chicken guinea etc. in the campus, even when it was prevalent in entire city and the state.

Power and Energy Saving

In the field of sustainable development, there are many major challenges with respect to economy and growth in favour of a society such as climate change, energy consumption, waste production, threats to public health, poverty, social exclusion, management of natural resources, loss of biodiversity and land use. In this context, every college has taken steps by providing posters, demonstration and presentations on power and energy conservation. These eye-catching posters remind the students on conserving power and electricity. The impact of these efforts can be well noted in the form of reduced electrical meter reading.

Spreading Greenery

In order to spread greenery in the campus and surroundings, the various colleges have conducted regular plantation drive inside the campus. Apart from this, every class has adopted a plant which takes care of it. The colleges also conduct regular guest lectures, presentations and awareness programs regarding preservation of the environment.

Water Conservation

The water conservation has been given due importance in the campus with the motto "Jal Hai To Kal Hai". Apart from creating general awareness amongst the teacher and the students regarding water conservation through posters and lectures, the college also follows the strict policy on no wastage of water
